Simplify data management with DataGroomr's six powerful modules:

DEDUPE

Easily merge duplicates into a master record using an intuitive interface.

TRANSFER

Dedupe, merge and append records while importing.

CLEANSE

Validate email addresses, mailing addresses and telephone numbers.

AUTOMATE

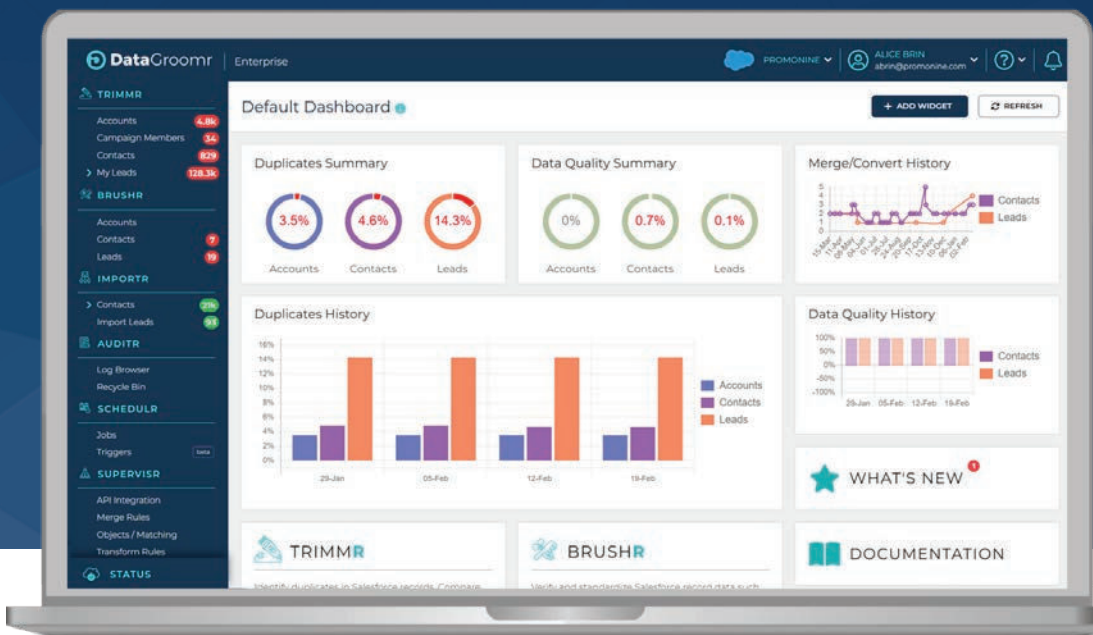

Control your deduplication jobs.

SETUP

Create customized merge rules and duplicate discovery algorithms trained for your data.

AUDIT

Monitor and record every action DataGroomr takes.

Watch AI-powered Salesforce deduplication in action!

youtu.be/mUNvBbHbW-k

Simply the Best Data Integrity product available. Nothing else comes close. DataGroomr is the new standard.

Scott Edelstein, Marcus & Millichap

The functionality of DataGroomr blows any other deduplication app out of the water. So easy to use, great customer service, and so much functionality.

Bethany Hopper, Homesteaders Life

DataGroomr is the first tool I reach for when cleansing account, contact, and lead data in Salesforce. It's easy to use, easy to automate, and helps to make data cleansing an enjoyable experience.

Kent Moir, RTI International

This is by far the best de-duplication technology available today for Salesforce.

Michael Morrell, ECI Software Solutions
